Introduction

A Palo Alto Networks Certified Network Security Engineer is capable of designing, deploying, configuring, maintaining, and troubleshooting the vast majority of Palo Alto Networks-based network security implementations. Either exam should be taken by anyone who is prepared to demonstrate a deep understanding of Palo Alto Networks technologies. Candidates can be anyone who uses Palo Alto Networks products, including customers, partners, system engineers, systems integrators, and support engineers.

A diagram showing a blue Palo Alto Networks firewall device at the bottom. A blue arrow points from a cloud of various application icons (like Gmail, Facebook, etc.) above to the firewall. Another blue arrow points from the firewall to the right, and an orange arrow points from the right back to the firewall.
