### Management Service

Use this feature to configure how clients connect to this server by using remote connections in IIS Manager.

Enable remote connections

Identity Credentials

Windows credentials only

Windows credentials or IIS Manager credentials

Connections

IP Address: All Unassigned Port: 8172

SSL Certificate: 6F4464302EEB7A678F8476B846115BA5B8155BEA

Log requests to: %SystemDrive%\Inetpub\logs\WMSvc Browse

IP and Domain Restrictions

Access for unspecified clients: Allow

Mode	Requestor	
		Allow...
		Deny...
		Delete

Alerts

The Management Service (WMSVC) is stopped. It must be started to remotely manage the Web server by using the IIS Manager. It is also required when IIS site or application administrators manage delegated features.
